Kelly –

The call went fine. Both John Murray in Feinstein's office and June Williams in Harris' office were able to join. Angeles provided an overview with supporting comments from John Chesnutt and Lily Lee. John Murray asked most of the questions and just wanted to better understand the timeline and what EPA's plans are going forward as well as any plans for an upcoming public announcement. June's questions were on whether the residents of Parcel A were/have been notified along with the Mayor and Supervisor Cohen. Angeles, John, and Lily provided a good summary of that. I mentioned to folks that I would be out of the office on Friday and June Williams requested Dean's contact information which I provided to both John and June. I am including the following in my end-of-day. Have a nice weekend and see you on Monday.

**Sen. Dianne Feinstein (D-CA) and Sen. Kamala Harris (D-CA):** Brent Maier received a request from John Murray in the Senator's San Francisco office for a call today to discuss the recent finding by CDPH of some radiological contamination at Parcel A at the Hunters Point Superfund Site. Brent coordinated a call at 2:00pm, that also included June Williams from Senator Harris' San Francisco Office who was also extended an invite, with Superfund's Lily Lee, John Chesnutt, Angeles Herrera, and John Lyons as well as Chief of Staff Amy Miller Senior Policy Advisor Chris Hage, Office of Regional Counsel's Brianna Fairbanks, and OPA's Soledad Calvino, and Michelle Huitric.
